

## Position 1

### The Department of Educational Research Center of Research and Advanced Studies of the National Polytechnic Institute

Cinvestav-Sede Sur

Departamento de  
Investigaciones  
Educativas

invites applications for a research-teaching professor position. The Department is a graduate level institution dedicated to educational research and teaching (masters and doctoral programs). Interested candidates should send evidence of academic degrees earned, copies of publications and documentation relevant to professional experience.

#### Requirements:

1. PhD degree in the Social Sciences or Humanities
2. Academic publications (include up to three recent publications)
3. University-level teaching experience
4. Interest in basic research and in collegiate academic activity

#### Useful background experience:

1. Academically oriented teaching and research experience
2. Member of SNI (Mexican National System of Researchers)
3. Professional recognition in the area of Educational Research
4. Participation in international professional meetings, associations and/or collaborations
5. Postdoctoral position
6. Thesis advisor
7. Familiarity with the Mexican national system of public education
8. Other professional activities and ties to the community

#### The ideal candidate will have one of the following profiles:

1. Research training and experience in the analysis of the politics, institutional structure, tendencies, reforms, and educational modalities of Mexican school public education, including analysis of evaluation processes and results
2. Research training and experience in informal education: detection and analysis of tendencies, modalities and strategies

Research and analytical perspectives of interest: statistical analysis; institutional, discourse, sociocultural, multimodal analysis
